OPEN LETTER TO VOTERS

Throughout my re-election campaign for Macomb County Commissioner, my opponent and some of his supporters have initiated vicious attacks against me. They have attacked my experience, qualifications, accomplishments, and even being a mother and wife. As election day draws near, I am writing to share my life experiences and tell you about who I am and what I have accomplished as your County Commissioner in a very short year and a half.

Although I am proud of the many endorsements I have received from local elected officials, the endorsement that I treasure the most comes from my family. I have been a devoted wife for over 27 years, a dedicated mother to four amazing children aged 18 to 26, a committed volunteer for the community, and an accomplished County Commissioner. Yet, for some reason, my opponent fails to view any of my accomplishments as a family woman, community volunteer, and Commissioner. In fact, he would like the voters to think this work is less valuable and should not be viewed as the kind of experience needed to represent those in Shelby Township and Utica. I know my family, and I am very representative of the individuals and families in this district, just like yours.

I'd ask that you each take a moment and think about this:

I have been a devoted wife to my husband, our Shelby Township Clerk. I have supported his work as an elected official. In our journey together, I understand first-hand how to ensure things get done. My husband is a caring and helpful person to all, and it is no surprise that his nickname around the township is "Your Friendly Neighborhood Clerk."

I have been a dedicated mother, teaching quality principles not only to our children but also as a mentor to their friends. Our home has been a safe place for gatherings and an opportunity to teach. I was involved in every aspect of their lives, and **I know that every parent can relate to the fact that our job never ends—it is 24-7-365.**

As your county commissioner, I have kept my promise to all the residents and small businesses. I voted no every time there was any mention of a pay raise for elected officials, no on new taxes, no new fees, and no on wasteful spending. I brought in millions into the district for infrastructure and roads. I know firsthand how local government can affect a family's pocketbook. I will continue to fix the roads, repair infrastructure, expand services, and NOT raise taxes.

Friends, you can choose to take different life paths. I respect and admire the choices that others made. My path was and is my choice. I value every individual no matter their financial status or how many titles they hold.

As you can see, contrary to what my opponent and his supporters may think and say, every aspect of my life for many years has been focused on LISTENING, LEARNING, AND WORKING HARD for my family and neighbors. I am a homeowner, taxpayer, volunteer, and public servant. The family values that I hold sacred are the same values that make Shelby Township and Utica two of the best places to live in Michigan.

I will not allow others to discount the value of my hard work as a parent, and I will not be bullied by those who try to diminish my standing in the community. I will continue to be a common-sense voice for families and rest assured, as your County Commissioner, my experience and accomplishments will continue to prove truly valuable and deliver results for all families and businesses.

I humbly ask for your vote on Tuesday, August 6th, for the Primary Election.

Sylvia Grot
