

- **AIMega** is a cardiovascular health, dietary supplement that combines organic seed oils and medium-chain triglycerides (MCTs) for essential fatty acids (EFA's) that are often lacking in our diets. EFA's are the main structural component of every cell membrane and are necessary for cell growth and activity.
- **BarleyLife** is an all-natural, green barley juice powder concentrate for daily nutrition and a strong foundation for good health. It is abundant in enzymes and essential amino acids, rich in antioxidant ability and inflammatory-fighting activity, and provides immune system support. Available in original powder, vegan capsules and great-tasting BarleyLife Xtra, with 18 fruit and vegetable powders.
- **BioVivify** is a dietary supplement that can improve the health of the skin, hair and nails through the power of AstaReal® astaxanthin, L-proline, glycine, L-lysine, biotin and vitamin C.
- **Calcium** provides highly absorbable calcium and supporting nutrients that are crucial to proper skeletal function and overall wellness.
- **CellSparc 360** combines coenzyme Q10 (CoQ10) with tocotrienols and fish oil to provide total cardiovascular support. The CoQ10 provides potent antioxidant capabilities, and the tocotrienols and fish oil help maintain healthy cholesterol and triglyceride levels.
- **CoCocoa LeafGreens** delivers the delicious taste and antioxidant activity of cocoa combined with barley grass juice powder, spinach, kale, arugula, Swiss chard leaves and broccoli sprout powder, to work synergistically for optimal health benefits.
- **Composure** is a combination of relaxing herbs that helps to maintain your neuro health, especially in regard to dealing with stress.
- **CranVerry+** is a natural cranberry extract product with resveratrol, mangosteen and the enzyme beta glucanase, which has been shown to maintain urinary tract health by allowing pathogens to be flushed out by the urine rather than adhering to the walls of the urinary tract.
- **Fit 'n Fiber** is a daily-use fiber for safe, effective and consistent results. It features three fiber sources—psyllium, konjac and oat—along with seven other synergistic fiber and herb ingredients. Together, they help with regularity and appetite control, provide prebiotics and encourage a healthy weight.
- **FloraFood** is a powerful combination of three friendly bacteria – *Lactobacillus gasseri*, *Bifidobacteria bifidum*, and *Bifidobacteria longum* – that helps maintain a healthy intestinal balance integral to good health.
- **Frame Essentials** is a vegan dietary supplement that supports joint health with a combination of four effective ingredients: glucosamine sulfate, glucosamine hydrochloride, boswellia extract and methylsulfonylmethane (MSM).
- **GarlicAIM** delivers a unique combination of 3 types of garlic: Alpine Wild Garlic (leaf), Fermented Black Garlic (bulb) and Garlic Extract (bulb). These 3 garlic ingredients greatly contribute to the maintenance of cardiovascular and immune health and provide antioxidant properties.
- **Garden Trio** consists of BarleyLife, a juice powder of young barley plants, Just Carrots, a carrot juice powder, and RediBeets, a beet juice powder. Together, they provide an optimum nutritional base for maintaining whole body health.
- **GinkgoSense** combines the extracts of ginkgo biloba, curcumin and black pepper, with ashwagandha root, ginger root and the carotenoids lutein and zeaxanthin to provide overall support for your neuro health. These carefully selected ingredients can add positive factors for maintaining memory, concentration and mental clarity.
- **GlucoChrom** combines chromium, vanadium, gymnema sylvestre and bitter melon to maintain healthy blood sugar levels and enhance carbohydrate and fat metabolism.
- **Herbal Fiberblend** is a combination of soluble and insoluble psyllium fiber and cleansing herbs that helps maintain bowel regularity, provides dietary fiber, and leads to detoxification. Available in unflavored powder, natural raspberry powder and vegan capsules.
- **Herbal Release** is an herbal combination that helps maintain a healthy lymphatic system, integral to maintaining our immune system.
- **Just Carrots** is a carrot juice powder concentrate that contains important nutrients such as alpha- and beta-carotene.
- **Mag-nificence CWR** bath additive provides a gentle way to raise your body's magnesium profile, which is critical to the utilization and production of energy during cell metabolism.
- **Para 90** is a unique combination of herbs that helps maintain a parasite-free body. *Not available in Canada.*
- **Peak Endurance** is a blueberry/acai electrolyte drink mix with PEAK ATP®, B vitamins, and vitamin C to energize your mental and physical performance. It contains 200 mg of Peak ATP per serving.
- **PrepZymes** is a combination of digestive enzymes that helps our bodies break down foods so we get more nutrients per meal. It is specially formulated for high-sugar, high-fat diets commonly found in "industrialized" countries.
- **Proancynol 2000** is a combination of green tea, grape seed extract, alpha-lipoic acid and other powerful antioxidants that helps fight free radicals and maintain a healthy immune system.
- **ProPeas** is a vegetable protein powder providing 12 grams of protein. Low in carbohydrates and fat, it is ideal for weight management thanks to protein's ability to increase satiety, improve lean muscle and increase metabolism.
- **ReAssure SP** is a unique and synergistic combination of saw palmetto berry oil extract, pumpkin seed oil, tomato lycopene, and zinc citrate for the maintenance of prostate health. Saw palmetto plant sterols have been shown to help maintain cholesterol health.
- **RediBeets** is a concentrated beet juice powder with only the fiber removed. It contains essential enzymes along with the natural form of betaine and dietary nitrates.
- **Renewed Balance** is a body cream containing natural plant-derived ingredients that work synergistically. *Not available in Canada.*
