

100% Made in Italy

AUTOMATIC TILT-BACK TYRE CHANGER

TYRE CHANGER WITH COMBINED ASSIST ARM AND POWER X

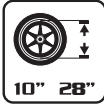

4

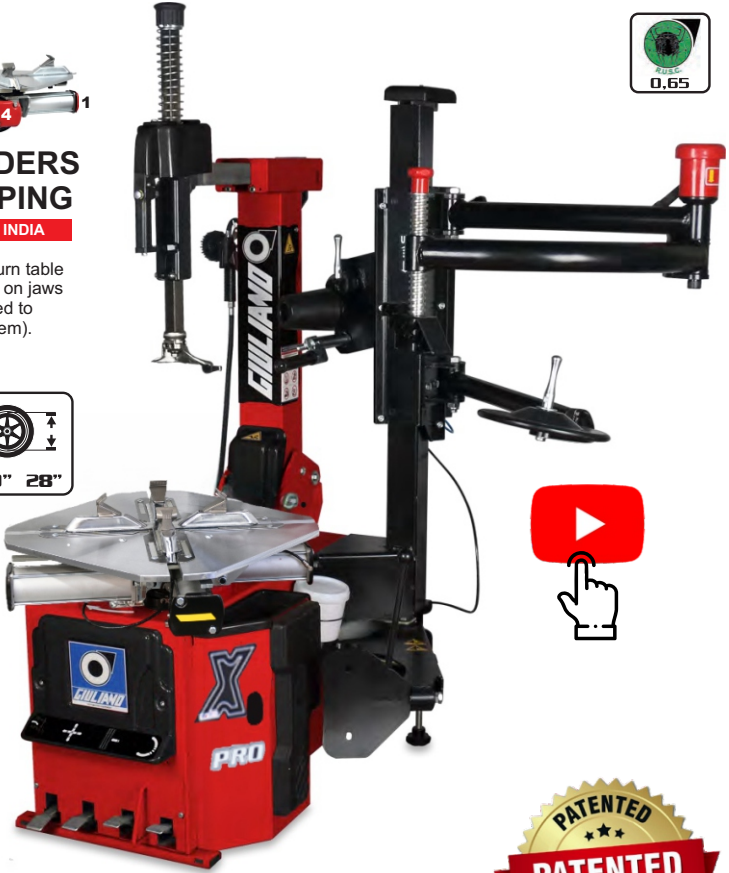

CYLINDERS CLAMPING

POWERX for FIRST TIME IN INDIA

PowerX 4 cylinders clamping turn table provides huge clamping power on jaws (up to 60% more, compared to traditional 2 cylinders system).

RIGHT TO REPAIR
all service parts
available for at least
10 YEARS
since production.

AUTOMATIC TILT-BACK TYRE CHANGER

TYRE CHANGER WITH COMBINED ASSIST ARM AND POWER X

Tilt column designs provide the operator a larger work area, prevent damage to the rim when setting it on the turntable, no interference on second bead removal.

Simultaneous pneumatic locking of horizontal and vertical arms, with ideal mounting head positioning. Vertical arm support provides much stronger resistance against the toughest tyres, adjustable base ideal the working condition 4mm hexagonal shaft with high torsional rigidity in all working positions.

Self-centering 4-jaws chuck ensure the perfect rim centering, with measurement marks ease clamping.

Twin-cylinder actuator provides 40% more clamping force than single cylinder designs.

The middle position of the clamping control pedal allows fine adjustment, better calibration and more precise clamping.

Drawer design, front extractable pedal assembly for easy maintenance.

HP3
PNEUMATIC BEAD PRESSING DEVICE
Enhance tyre changer's performance and provide a valuable support in mounting/demounting most difficult tyre applications in the market, such as Run Flat, UHP and low profiled tyres.

Optional QX SYSTEM
EXCLUSIVE GIULIANO PATENTED TECHNOLOGY
Original tyre mounting/demounting system with no use of bead lifting lever.

| STANDARD FEATURES | SX 226 PRO |
|------------------------------------|---------------------------|
| EXTERNAL CLAMPING | 10" - 26" |
| INTERNAL CLAMPING | 12" - 28" |
| MAX. WHEEL DIAMETER | 1100mm / 43" |
| MAX. WHEEL WIDTH | 390mm / 15" |
| POWER SUPPLY | 400V-3ph / 220V-1ph |
| MOTOR POWER | 0.55kW(3ph) / 0.75kW(1ph) |
| ROTATING SPEED | 7 rpm |
| WORKING PRESSURE | 10bar / 145psi |
| BEAD BREAKER FORCE | 30800N |
| INFLATING PRESSURE LIMITING DEVICE | 3.5bar / 50psi |
| NET WEIGHT | 305kg |
| OVERALL DIMENSION | 1590 x 1820 x 1910 |

- An extremely steady frame, complete structure of carriage design.
- Horizontal power roller helps easy bead and rim lubrication, loosen top beads, and assist in mounting run flat and low-profile tyres.
- Lower disk can be used to help lifting the tyre during demounting process.
- Adjustable support to ensure perfect steadiness during demounting and mounting processes.
- Adjustable bead pressing height for stress reduction on tyres side-walls.
- Multi-steps bead pressing tool for correct beads shapes fitting, let the rotating arms press even the most stiff side-wall tyres correctly.
